Positive Pay

NORTH VALLEY BANK

Positive Pay is one of the most effective ways to prevent check fraud, and anyone can use this service! North Valley Bank offers Positive Pay through our online banking program. Positive Pay adds an extra layer of fraud protection by comparing a file of your issued checks against checks that are presented to the bank for payment. Here's how it works:

1 Supply your list of checks

Through the online banking platform, supply a list of checks you have issued. One of our team members will train you or your authorized administrator how to upload your list of processed payments.

2 Watch for exceptions

North Valley Bank will only process checks that appear on your submitted check issue file. If a check is presented to us that does not appear on the list, it will be flagged and presented to you for approval or denial.

3 Breathe a bit easier!

Fraudsters are getting sneakier as technology evolves. Enrolling in Positive Pay gives you an extra layer of protection, protecting your assets and providing you peace of mind.
